TALLER D'EN PICH COLLECTIONS

S T A R & W A V E

Taller d'en Pich gives names of satellites to their textures to make a tribute to the Universe, which is a source of inspiration for so many people.

Our collections are well differentiated. One with fine and soft textures and the other one, which is much more closer to sculpture.

The "Star Collection" with soft lines, discontinuous and also with squares, offers an elegant and delicate ambiance. A large wall or a facade offers an unique and extraordinary union.

The "Wave Collection" takes us to another dimension, the reliefs, waves and shapes create extraordinary pieces of work. Our experience is focused in specific works such as singular rooms, museums and very special spots, among others. The "Wave Collection" has as many applications as the imagination of a good designer may have.

With these collections, we intend to highlight the elegance, harmony and delicate qualities of stone materials.

At the Taller d'en Pich, we like to offer our experience, passion and creativity.
